RSVP Film Studios update on the ongoing Moderna vaccination:

Earlier this week, RSVP Film Studios through ICTSI Foundation and Zuellig Pharma were able to vaccinate **all** registered and paid registrants as of June 12. Those who were chosen via DOH and Zuellig Pharma standards were very excited to receive their first dose of the Moderna Vaccine at SIVC (Solaire IPI Vaccination Centre). Participants were free to choose vaccination either at the Solaire Theatre, or via drive through at the Solaire parking lot.

A text message and email were sent 1 to 3 days in advance to each individual participant's mobile number and registered email. This contained information, instructions, jab date, time slot, venue and a QR code.

On vaccination day, RSVP Film Studios were able to vaccinate **all** the participants. Some chose the drive-through option and some chose to enter the Solaire Theater to be vaccinated. All participants had to show the QR code sent via email at the registration counter.

After jabbing, depending on whether the participant has comorbidities or not, the required side-effects wait was 15 or 30 minutes to oversee for any adverse reactions to the vaccine. We are happy to report that none of the participants experienced any adverse reactions whether they were senior citizens or persons with comorbidities.

We were told that the average wait from start to finish at Solaire was at most only 35 minutes and even as quick as 20 minutes! I'm sure we have all heard of horror stories of people lining up for full days on end at LGU brgy vaccination sites, without success.

Once the participants finished their first jab and observation, they were free to go. All participants were very happy with the efficiency and safety that Solaire, Zuellig Pharma and RSVP Film Studios exhibited. After their vaccination, some vaccine recipients chose to do some "shopping therapy"!

We are happy to announce that we will be receiving many more doses throughout Q3 and even more in Q4 of this year. We encourage everyone, including your friends, to sign up with your respective home & office LGUs as well as in our sign-up link: <https://forms.gle/fa4d7EXDGFxzwkmF7>

Thank you again to our participants, ICSI Foundation, Solaire, and Zuellig Pharma for making this such a smooth, efficient, and hassle-free experience. The initial participant's 2nd jab is already scheduled 28 days after. We are excited for you to get your 2nd dose, to have the full benefits of the Moderna Vaccine.

To everyone else, we will keep you updated on the August bulk arrival and vaccination schedule. Updates can be also be found in our emails to you and through our website at <https://rsvpfilm.com/other-services/>

Again, we encourage everyone, including your friends, to sign up with your respective home & office LGUs as well as in our sign-up link: <https://forms.gle/fa4d7EXDGFxzwkmF7>

Best Regards & Stay Safe,

Oli & Rafa
